

Cork Flooring Care & Maintenance OF WICANDERS FLOORS

WICANDERS floors are easy to maintain. You only need a mild detergent and a vacuum cleaner. For daily/weekly maintenance, you can also use a broom handle with a cloth on the end. The removable cloth has a substance with anti-static characteristics, which will clean all the dust and prevent its settling on the floor.

For maintaining your floor as new, WICANDERS recommends a range of Maintenance Products, which will give pleasing results.

For the correct use follow the instructions on the packaging labels of each product, as well as the information from technical data sheets.

GENERAL RULES

You should wait 24 hours after installation of the floor, to allow the flooring adhesive to dry completely.

Important Note: The Wicanders floor coverings with Xtreme WRT finish must only be cleaned with Xtreme Natural Cleaner or Wicanders Soft Cleaner. **NO OTHER PRODUCTS CAN BE USED** for cleaning and maintenance purposes.
